

Bet Sheekoom changed my view of people

Bet Sheekoom has helped changed my view of how I look at other people, I used to be a self-centred, selfish, hard core person. My attitude was "if I can do it so can they, why must I just give, give" meaning that I didn't have compassion towards my fellow men in helping them, I was just all for myself.

In early 2001 I met a lady by the name of Shelley Koekemoer, after which my whole life and views started to change. I developed compassion for others in general and learned so much that I had to learn afresh how to forgive myself from the shame and guilt I felt. I am telling all this to show what impact they had in my life with the help of the transforming power of the Holy Spirit.

Shelley and Gary Koekemoer through Bet Sheekoom has helped me in so many ways that when I look back on my life I really would have given up, they thought me how to depend on GOD, how to value and love myself, how to give generously... I can go on and on..

I also want to thank GOD for their obedience in helping others and all those that are helping them in contributing and working together in the Kingdom of GOD to lift up poverty, fight addictions and abuse of all sorts. They are such a blessing in me and my family's lives that even my children through the principles I learned from them know how to bless others. Through their blessings I can bless others and teach them what I was taught and I find that those around me are at peace and also not keeping for themselves but pass on what was given to them. There is nothing more uplifting to see the expression on a person's face when given an item and need not to pay for it and telling them it's a blessing and gift and in return they now learn to do the same to others for they have learned to bless.

There were days when I was so hopeless because of shortcomings in my house, food clothing, spiritual and physical need and Bet Sheekoom always had their hand ready, extended toward me and my family. I am very great full and humbled and by giving back to them I can only do unto others as they have done to me. My children and I experienced outings with them, Christmas celebration and gifts as would with a family.

Thank you Bet Sheekoom and big thumbs up for you!!
